EXPERIENCE

Software Engineer 2   Nov 2019 - present
CarMax - Richmond, VA
- Developing a side-by-side UX experience in React/.NET replacing the legacy Order Processing experience and connecting with 30+ microservices and third-party services.
- Implemented Adobe Analytics integration to increase real-time metric gathering.
- Focus on UX accessibility and reusable design/development for increased user experience.

Software Engineer 3   May 2018 - Oct 2019
Walmart - Bentonville, AR
- Lead Frontend Developer of a nine-person team building a custom ERP system integrating with microservice APIs (C#, Node, Python), legacy applications and third-party services.
- Lead Developer and Systems Architect for React UI Library suite encompassing designs for structural, presentational, chatbot and feedback components with dynamically rendered web documentation.
- Supporting other teams' development projects as needed. I.e. project architecture mapping, specific feature development and application optimization.
- Mentor 5 junior developers with 1:1 development sessions and/or career and goal planning.

Mobile and Web Application Developer   Sept 2018 - Sept 2019
Tabbert Technologies, LLC - Bentonville, AR
- Consulting for more than a dozen nonprofits and local businesses to create websites and applications using React and WordPress (JS/PHP).
- Focusing on reaching customers, donors, and recipients using modern UI/UX principles and SEO optimization for maximum reach.

Frontend Developer (Remote)   Jul 2017 - Jun 2018
Chingu - Toronto, Canada
- Front end development of the original Chingu Developer Network client using React and interfacing with a Node/GraphQL/PostgreSQL backend.
- Facilitate 8-10 week long Voyage cohorts of 350 persons across 75 nations.

EDUCATION

Bachelors of Science, Software Development   Apr 2021
